IBM Cloud Command Line Interface - InstallShield Wizard

The installation completed successfully

To get started, open a terminal window and enter "ibmcloud
help". Refer to http://ibm.biz/cli-auto-completion if you want to
enable auto-completion for zsh or bash.

IBM Cloud Command Line Interface has a plug-in framework to
extend its capability. To install recommended plug-ins and
dependencies, run the install script from http://ibm.biz/install-
idt. For additional plug-in details, see http://ibm.biz/install-cli-
plugin.

Starting from version 1.0.0, IBM Cloud CLI no longer bundles
the Cloud Foundry CLI by default. To run Cloud Foundry
commands via the IBM Cloud CLI, you need to install the Cloud
Foundry CLI through "ibmcloud cf install" command.
